

Forensic Programs: Onondaga County

Recovery Case Management I @ Onondaga County Probation Alternative to Incarceration Program (ATIP):

Program for individuals who have violated the terms of their probation as a result of their ongoing addictions and/or mental health issues. Initially provides substance abuse assessments followed by intensive case management linking participants w/ appropriate, substance abuse treatment, mental health services and community supports with the goal of preventing re-incarceration. Case management would include making home visits, providing support for appointments and encouraging critical life style changes. Referrals to RCM I from ATIP only.

Recovery Case Management II:

Designed to reduce pretrial detention of certain nonviolent offenders and certain indigent populations. Recovery Case Management II provides substance abuse assessment and case management before the disposition of their legal case. Initially provides substance abuse assessments followed by intensive case management linking clients to appropriate substance abuse services, mental health services and community services supports. Case management would include making home visits, providing support for appointments and encouraging critical life style changes. Clients are referred by Pre-Trial Release and the Assigned Counsel Program only.

Potential clients: Must be charged with non-violent felonies or misdemeanors (No A, B, or C Felonies, No probation/parole). Open to adolescents with legal guardians, or those lacking family or other resources to assist in their release.

New Directions: Located within and serving inmates of the Jamesville Correctional Facility, New Directions provides chemical dependency services including assessment, counseling, and discharge planning. Program works with other community and county agencies to coordinate service and ensure service needs are met for inmates prior to release.
